EXPERIENCE

FREELANCE FULL-STACK DEVELOPER | PHILIPPINES | 2019 - PRESENT | PHILIPPINES

Experienced Web Developer specializing in dynamic, data-driven applications using PHP, MySQL, HTML, CSS, JavaScript, and modern frameworks. Developed multiple systems during academic projects, emphasizing clean architecture, security, and maintainable backend logic. Skilled in creating custom CMS solutions, admin dashboards, and RESTful APIs, delivering scalable and efficient web applications.

- Developed Run Activity, a Flutter-based GPS fitness application utilizing real-time mapping and activity statistics.
- Designed and implemented the PJ Travel and Tours booking system, integrating Google Maps API for seamless travel management. <https://pjtravelandtours.cloudhost.host/>
- Built and maintained a logistics tracking system (2Go Marbel) and a local inventory system using Development Cloud API. <https://2go-marbel.cloudhost.host/2GO/public/>
- Successfully managed complex database operations, including resolving MySQL master-slave replication failures and optimizing query performance.
- Successfully Implement a Donation Web page With Saas payment integration. <https://donaterecoletos.com/>
